

READ ME FILE

Title: Econometric Perspectives on Economic Measurement

Author: Adam Gorajek

Description

This 'read me' file contains details of the code included in this archive that was used to generate the figures in RDP 2018-08. The only data in the paper are hypothetical, generated for these figures.

Code

The code behind the figures was written in 'R', version number 0.99.484.

The code is contained in the file 'Draw Figures.r'. To execute the file, the user needs only to specify the file directory in which the figure files are to be saved. The change is to be made on line 5. The user will also need a pdf viewer installed, since the figures are drawn as .pdf documents.
